Cools the Blood

Hot weather takes the life out of everybody. You become languid, debilitated, nervous, depressed. You lose your appetite and you have indigestion. Your blood becomes impure, your head aches, your nerves are weak, and you are tired all the time. You want something to purify your blood and make it cool and healthy.

Mr. Giovanni D'Nesi, of Parkside, South Australia, tells you how this may be done. He sends his photograph also.
"In this warm and debilitating climate I believe nearly every one needs a good tonic. For a number of years I have relied on Ayer's Sarsaparilla. I can strongly testify to its curative power in cooling the blood in hot weather and in toning up the whole system. It is a wonderful medicine."

AYER'S Sarsaparilla

There are many imitations "Sarsaparillas." Be sure you get Ayer's.
Ayer's Pills are Liver Pills. They cure constipation, biliousness, sick headache, nausea, and all liver troubles.
Prepared by Dr. J. C. Ayer & Co., Lowell, Mass., U.S.A.

GROW SUGAR BEETS.

Washington Farmers Substitute Beets in Place of Wheat.

Tacoma, Wash., Sept. 8.—Several hundred farmers in Eastern Washington and Oregon are finding it more profitable to raise sugar beets than wheat. They are turning an increased acreage from wheat raising to beet culture with large profits in sight. These conditions prevail generally about Waverly in Spokane county, and La Grande, Umatilla county, where sugar beet factories are in operation.

Superintendent Akerly of the La Grande sugar factory reports that there are 125 contracting growers in that valley this season as compared with fifty-eight last year. The average acreage tilled by the contractors is twenty-three and the average income per acre for this season's crop is estimated at \$38.50. The farmers are just beginning to pull the crop. They claim that beet raising is three times as profitable as wheat growing besides requiring less expensive machinery and apparatus to handle the crop.

RUSSIA WILL OUST BRITONS.

Agents of Chinese Service to be Expelled From Manchuria.

Peking, Sept. 10.—Paul Lessar, the Russian Minister here, has advised the Russian commander in Manchuria that the presence of foreigners in Manchuria during the military occupation is objectionable, and he is directed to expel the British imperial customs employees who may be sent to Manchuria to resume charge of the postal service.

According to advices received here from Manchuria, the Russians are making no visible preparations to withdraw from the military occupation of the southwest portion of the province of Shang King, as was stipulated should be done within six months of the signing of the treaty. Russian troops and immigrants are reported to be entering Manchuria in large numbers, but none are leaving the country.

Philippines at St. Louis

New York, Sept. 7.—Governor Taft of the Philippine islands has appointed Dr. William P. Wilson of Philadelphia special commissioner to represent the Philippine Government in preparation of the extensive exhibit which Governor Taft intends to make at the St. Louis Exposition of 1904. The Government of the Philippines will participate in the exposition on a large scale in order to adequately demonstrate the natural resources of the islands and present to the world evidence of the importance of these new possessions. The exhibit will occupy forty acres and over \$500,000 has already been appropriated for it. Dr. Wilson is at present director of the Philadelphia Museum.

Congratulations for President.

Washington, Sept. 4.—Messages of congratulation over the escape of the President from his accident yesterday have begun to come to the State Department from abroad. One of the first was the following from Emperor William of Germany:

"Posen, Sept. 4.—President, Washington: With all Americans, I praise the providence that saved your life from the terrible accident."
"WILLIAM, I. R."

Minister Wu called in person at the State Department early today to inquire of Acting Secretary Ade whether any ill consequences had followed yesterday's accident, and also to extend his congratulations to the President.

Maine Goes Republican.

Portland (Me.), Sept. 8.—Chairman Simpson of the State Committee tonight sent a message to the President saying:

"Maine has gone Republican as it once went for Governor Kent. We have carried the State by a plurality of 25,000. We have elected the entire delegation in Congress by a large majority, have chosen every Senator with one exception and about four-fifths of the Legislature. The Pine Tree State indorses your administration with no uncertain voice."

DISLIKE PRESIDENT'S SPEECHES.

Saturday Review Indulges in Some Sarcastic Remarks.

London, September 6.—Referring to President Roosevelt's recent speeches, the Saturday Review sarcastically remarks: President Roosevelt has made his pious opinions of the trusts as clear as his interpretation of the Monroe doctrine. Theoretically, he would have American business men see that he rather admires trusts as promotive of the national welfare, but he adds, as a rider, that their capacity for harm calls for greater control. "The German press is still explaining that the new Monroe doctrine is aimed at Great Britain and Canada and many British newspapers are preaching that the United States has no wish but for the best friendship of both. Both are equally wrong. German newspapers are, perhaps, most irritating to President Roosevelt, and the British press must amuse typical American citizens."

Sugar Making in Germany.

Los Angeles, Sept. 10.—August Kruger of Dessau, one of the largest sugar manufacturers of Germany, is in Los Angeles. Kruger is associated in the sugar industry with his father, who is a pioneer manufacturer of sugar in Germany.

His visit to the United States is for the purpose of learning the methods in use here for the refining of sugar and the machinery employed from the extracting stage to the placing of the product on the market.

California is considered on the Continent as the most important center in the United States for the manufacture of beet sugar.

Planters Dissatisfied.

Kingston, Jamaica, Sept. 7.—At a meeting yesterday afternoon of the representative sugar planters of Jamaica, resolutions were passed condemning Great Britain's neglect of the West Indies, resulting almost in ruin to the sugar industry, setting forth the total inadequacy of the measures proposed by Great Britain for the relief of her West Indian sugar planters, and calling for federation with Canada as the only means of relieving the fallen fortunes of Jamaica.

Gloomy Strike Outlook.

Wilkesbarre (Pa.), September 4.—President Baer's declaration that the miner's strike cannot be settled except on the terms heretofore stated by the coal companies has cast a gloom over the entire strike region. President Mitchell discussed Baer's statement with some of his lieutenants, but he declined to say anything for publication.

Sagasta Failing.

Madrid, Sept. 1.—Premier Sagasta is on the verge of physical collapse and his mental faculties are said to be becoming alarmingly weak. He suffers from insomnia and difficulty in breathing. It is taken for granted that the condition of his health and not that he is tired of public life is the real reason for the venerable statesman's impending retirement.

What Is Pain Balm?

Chamberlain's Pain Balm is a liniment and, while adapted to all ordinary uses of a liniment, has qualities which distinguish it from other remedies of this class. Pain Balm is especially beneficial for rheumatism. Thousands of cases can be cited in which it has effected a cure when the sufferer had previously the best medical service without receiving relief. Pain Balm is positively guaranteed to give relief in the most severe cases of chronic or acute rheumatism.

Pain Balm heals bruises, burns and scalds in less time than any other treatment. It is "antiseptic" that is, it prevents putrefaction and by so doing generally prevents an unsightly scar remaining after the injury is healed. For lame back, lumbago and neuralgia, Pain Balm has no equal. It has the quality of "getting to the right spot." No sufferer from these distressing affections should defer a trial of this remedy. One application gives relief. Try it. Hilo Drug Store sells it.

alifornia Fertilizer Works.

Office: 534 Clay Street, San Francisco, Cal.
Factories: South San Francisco and Berkeley, Cal.
M. D. HALL, Chemist

Manufacturers of Pure Bone Fertilizers and Pure Bone Meal.

Fertilizer Materials of Every Description.

Have constantly on hand the following goods adapted to the Island trade:
HIGH GRADE CANE MANURE, DIAMOND A FERTILIZERS, NITRATE OF SODA, SULPHATE OF AMMONIA, HIGH GRADE SULPHATE OF POTASH, FISH GUANO, WOOL DUST, ETC.

Special Manures Manufactured to Order.

The Manures manufactured by the CALIFORNIA FERTILIZER WORKS are made entirely from clean bone treated with acid, Dry Blood and Flesh, Potash and magnesia Salts. No adulteration of any kind is used, and every ton is sold under a guaranteed analysis. One ton or one thousand tons are almost exactly alike, and for excellent mechanical condition and high analysis have no superior in the market. The superiority of Pure Bone over any other Phosphatic material for Fertilizer use is so well known that it needs no explanation. The large and constantly increasing demand for the Fertilizers manufactured by the California Fertilizer Works is the best possible proof of their superior quality.

A Stock of "DIAMOND A" Fertilizer will be kept constantly on hand and for sale on the usual terms, by **L. TURNER CO., Ltd., Hilo.**

For Terms of Sale, which are equivalent to San Francisco prices with freight and other charges added, address:

L. TURNER CO., Ltd.
